Polished Collection

Golden Calcutta White

Size: 600x1200mm

Thickness: 9mm

Body: Porcelain - White Body

Porcelain tile reinvents itself by creating a new living style in which tradition becomes a source of inspiration for a contemporary look.

Polished porcelain tiles have an additional liquid glass coating applied to their surface, which is between 5-7 microns thick. Glossy porcelain tiles are lighter and thinner than unglazed porcelain ones. Glaze quality has a bearing on the lifespan of the glossed porcelain tile. Bright glazes are denser than dark ones when fired at a high temperature. Polished porcelain tile, which has an additional layer of glass on it, is one of the most moisture-resistant goods. Porcelain tiles with a high sheen and low porosity are common.
