Polished Collection

Marseille Black

Size: 600x1200mm

Thickness: 9mm

Body: Porcelain- White Body

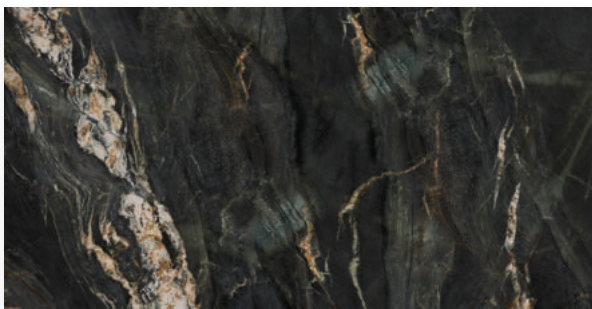

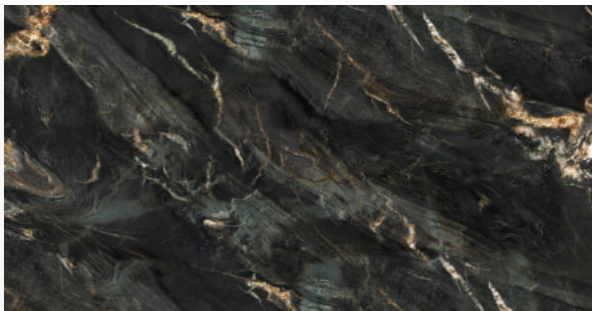

Porcelain tile reinvents itself by creating a new living style in which tradition becomes a source of inspiration for a contemporary look.

Polished porcelain tiles have an additional liquid glass coating applied to their surface, which is between 5-7 microns thick. Glossy porcelain tiles are lighter and thinner than unglazed porcelain ones. Glaze quality has a bearing on the lifespan of the glossed porcelain tile. Bright glazes are denser than dark ones when fired at a high temperature. Polished porcelain tile, which has an additional layer of glass on it, is one of the most moisture-resistant goods. Porcelain tiles with a high sheen and low porosity are common.

The background of the entire page is a close-up, high-resolution image of a dark, marbled tile. The pattern is complex and organic, with swirling veins of black, dark grey, and charcoal tones. Interspersed throughout are irregular, vein-like structures in shades of light beige, cream, and brown, creating a rich, textured appearance. The lighting is dramatic, highlighting the intricate details of the stone's grain and the depth of the dark colors.

Marseilles Black

pristine collection for mesmerizing designs

Black tiles can create a neutral, yet appealing floor that can enhance the colours of the walls and optimise the furniture and accessories that complete the room. When the choice falls to black tiles with more incisive, captivating graphics, for example, they themselves become the stars of the ambiance, immediately drawing the gaze.
